Adopt a cat

Ingrid's Haven is a non-profit, no-kill cat shelter in Victoria located just south of Broadford, 30 minutes on the Hume Fwy from the Ring Road, just an hour's drive from Melbourne CDB.

The cats and kittens are from death row at the pound, rescued and cared for by Ingrid until new loving homes can be found.

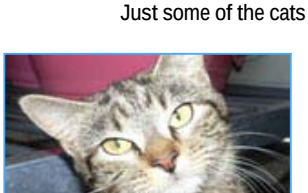
All Haven cats and kittens are desexed, vaccinated, microchipped, wormed and flea treated. Ingrid does not accept surrenders from individuals, (see the policy on the 'About' page on the website).

I presently have a large number of adult cats as well as kittens looking for forever homes. Adult cats are $90, kittens under six months $130. These prices are to cover the desexing and vacccinations etc.

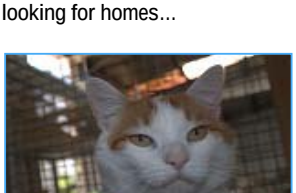
If you'd like to adopt a cat, call Ingrid on 0417 360 700, or email ingridarving@hotmail.com
The Haven is open on Saturdays from 11am - 4pm, or by appointment.

Just some of the cats looking for homes...

Cyrus is a tall cat with shapely legs and a very affectionate nature. He seeks me out when I arrive into the enclosure and I can almost see him thinking that the other cats should leave me alone because I am to be busy with him. He just can not get enough of cuddles and prances back and forth to make the most out of it. Cyrus will be a very good family cat. He will suit any home for that matter as he is simply lovely.



Amy is a darling. She is tabby, she has had a rather hard life judging by her looks when she arrived, skinny and unkempt and still she is only around a year old. This little cat needs so much TLC but she doesn't ask for it, she only looks, but pick her up and she is in heaven.



Cricket is 3 years old, cheeky and affectionate. He needs a very caring home and to live as an inside cat as he has had periods with crystals in the urinary tract. He is currently on Hill's c/d and needs to remain on this food for the rest of his life. Cricket will come with a big bag of c/d and a clean bill of health.

Rosa is a full ginger female and only young. This cat needs to be an only cat in her new home as she thoroughly detests other felines, she is no good with dogs either, but may accept them if not too close. To humans she is super sweet, she is beautiful and she has done her bit in the kitten department and she couldn't get them to leave home soon enough.
